About Ung i Midtdalen:
Ung i Midtdalen (UiM) is a youth priority programme in the three municipalities Ringebu-, Sør-Fron and Nord-Fron kommune, which together creates the region of Midt-Gudbrandsdal in Norway. The youth priority programme is also a part of the youth policy of Innlandet county, which also co-funds the activities. UiM is located in the sectoion of youth work in Nord-Fron kommune.

Our main objective is to improve the conditions for youth in the age 13 to 19. UiM is cooperating with the local youth councils, youth workers and the two youth-activity houses in the region to achieve this. Projects and activities, such as festivals and youth events, training of youth council members and other organized groups of youth who oversee events and activities, are what we experience as the success factors to creating better conditions for being “Young in Midtdalen”.

UiM has several years of experience working with young people. This experience varies from event planning, implementing meeting and training, festivals, cooperation between sectors to prevent alcohol and drug related problems, financing, budgeting and international projects as youth exchanges and ESC projects.

UiM has been hosting and coordinating ESC projects since 2014 and have also been coordinating several Erasmus+ youth exchanges. Accredited Quality Label valid through 2027.
