Description de l'organisation

HUU (Armenian Volunteer Exchange Network) is a nonprofit organization that promotes voluntary service and non-formal education through international work camps, 12 long-term ESC projects, and youth exchanges. Founded in 1965, HUU empowers young people to engage in community development, cultural exchange, and social inclusion both in Armenia and abroad.

Description de l'activité

The volunteer will support activities for children who are in-patients at Arabkir Medical Center. Tasks will include assisting with and organizing arts and crafts workshops (painting, sculpting, handicrafts), basic foreign language classes, cultural presentations, music and dance sessions, and thematic events. Volunteers may also organize games, sports activities, excursions, and outdoor activities, in cooperation with the staff and in line with the children's health needs. They will have the opportunity to propose their own workshops and ideas, participate in discussions and seminars about future programs, and contribute to creating a positive and engaging environment for the children.

Informations complémentaires

The volunteer will be provided with free accommodation in a dormitory in Yerevan, located within reasonable distance from the HUU office. The volunteers will stay in twin rooms (2 people per room) and the dormitory will be equipped with basic furniture and kitchen facilities.

The volunteer will receive a monthly allowance for food, transport and other expenses.

The volunteer will benefit from language support and mentorship throughout the project. In addition to their regular project activities, HUU also organizes a variety of cultural and social events for volunteers. These may include visits to museums, ballet and opera performances, as well as excursions to explore areas outside the capital.

Profil des volontaires recherché

We are looking for active, communicative, and creative volunteers who enjoy working with children in a supportive and caring environment. Volunteers should be open-minded, adaptable, and motivated to take part in both individual and group activities with children who are receiving medical treatment. Good communication skills in English will help with integration into the team and interaction with the children. No previous medical background is required—enthusiasm, empathy, and a willingness to learn are the most important qualities.
